

MOTION ACTIVATED LED LIGHT - FOR OUTDOOR SECURITY AND INDOOR CONVENIENCE.

- Motion detection sensor
- Lamp switch on with any movement, making walking around at home safer
- Efficient light usage, saves energy and costs

Ensure efficient lighting wherever you need it: Hallways, stairways, bathrooms or living spaces. Smartsense makes your home smarter, as it only switches on when movement is detected. Lights will never be accidentally left on again, saving energy and costs.

Technical data:

Socket Type:	E27
Power Usage:	8W
Brightness:	806 Lumen
Detection angle:	100 degree
Delay:	in 90 seconds
Power Supply:	220-240V, 50/60Hz

DELAYED TURN OFF. ENHANCED SAFETY.

- Delayed turn off
- Remains illuminated for 15 seconds after turning off the switch, preventing walking around in the dark at home
- Easy usage: Screw in and it's ready

Never stub a toe again, trying to navigate in the dark, as Twilight remains illuminated for 15 seconds after you turn off the light switch.

Technical data:

Socket Type:	E27/GU10
Power Usage:	8W
Brightness:	806 Lumen, 60lm in delay
Beam Angle:	200 degrees
Color temperature:	2700 Kelvin
Power Supply:	220-240V, 50/60Hz
